Three Hundred Converts at Tabernacle Meetings

Evangelist Hamilton's Address at the Men's Meeting Conceded to be the Strongest and Most Telling Appeal Ever Heard in Bedford, and Resulted in Seventeen Men Hitting the Trail. Meetings to Close Next Sunday.

Despite the most unfavorable weather conditions of the past week the Union Tabernacle Meetings have been going forward with unabated interest, and with but slightly diminished crowds. These meetings have witnessed some remarkable innovations in the ordinary routine of religious gatherings, and have done much to demonstrate, that in the field of religious activities, as elsewhere, "variety is the spice of life."

High School Night on Friday evening, December 4, brought together a large and enthusiastic gathering of the young people of the town. During the afternoon committees from the various classes of the High School were busy decorating the Tabernacle with the school colors, and with their class banners. In the evening the High School students were joined at the Presbyterian Church by the grades, from which place, headed by the school orchestra, they marched to the Tabernacle, where seats were reserved for them. Their arrival at the Tabernacle was vociferously announced by the giving of the Bedford High School Yell. The "Yell," a few moments later, of a delegation of students from the Everett High School was greeted with applause and cheers. By a few friendly and humorous introductory remarks Dr. Hamilton soon established a bond of sympathy between himself and his student hearers, and then for an hour and a half he held their closest attention as with strong and many words he appealed to all the noble and heroic impulses of their natures, calling them to lives of purity and honor, and to the living and doing as the only worthy goal of their ambitions. The service throughout was spirited and enthusiastic, and a practical exhibition of the fact that it is possible for young people to have the best of "good times" without ever going in the ways of the world and sin at all.

Saturday was Farmers' Day, and while the threatening nature of the skies and the muddy roads prevented the farmers from turning out in large numbers yet the day was one of great interest and profit to the people of both town and country. Inspiring and helpful talks by Dr. Hamilton in the forenoon and afternoon were interspersed with the noon hour, during which the quickly improvised tables, laden with all manner of good things, were surrounded by merry groups of men and women in whose thought the spirit of sociability and good fellowship had loose rein. That the spirit of true sociability is not inimical to the spirit of true religion was evidenced in the fact that the Saturday evening meeting was one of the most fruitful and deeply spiritual services yet held.

At 2 o'clock on Saturday afternoon the Tabernacle was offered for sale to the highest bidder. Dr. Statler served as auctioneer, and after some lively bidding the Tabernacle was knocked off to John W. Davidson for the sum of \$370. The additional sale of some unused lumber put a little more than four hundred dollars into the hands of the finance committee.

Sunday brought a down pouring of rain but an outpouring of the people to the Tabernacle. At the 11 o'clock service a statement from the finance committee was given, and the sum of five hundred dollars was asked to clean up the balance of the expense fund, and the by release those who had subscribed to the guarantee fund from all obligations. In a few moments this amount was all raised, thus entirely cleaning up the expense account and enabling the finance committee to pay all bills. No collections are being taken this week.

Sunday afternoon a special meeting for women was held in the Methodist Church addressed by Mrs. Shumaker, the lady worker of the evangelistic party. At the same hour Dr. Hamilton addressed the second men's meeting at the Tabernacle. It is safe to say that never have the men of Bedford heard such a clear, strong and telling address as fell from the lips of Dr. Hamilton upon this occasion, as under the evident inspiration of the Spirit of God he appealed to them in behalf of a purer, truer, nobler manhood. It was a motley crowd of men to whom he spoke, but by his straightforward earnest manner he at once gripped their hearts and consciences. With sledge hammer blows he struck at the sins to which men are most addicted, profanity, impurity, gambling and booze. In his final arraignment of the saloon as the only institution, which through a period of years, has successfully and continuously insulted the American flag, he lifted a beautiful flag from a table on the platform, revealing a large whiskey jug protected beneath the folds, and with the end of the flag still pinned underneath the folds, he showed in most eloquent words how impotent is our government to assert itself in behalf of the God and motherhood of our country.

It should be thoroughly understood by the people of our town and community that Dr. Hamilton has not yet received one penny for his service here. Prof. Gould's salary has been paid out of the expense fund, but Dr. Hamilton's only remuneration will be what is received through the free-will offerings of the people in next Sunday's services, and out of this amount he pays his helpers, Mrs. Shumaker and Mr. Fath. That a man of Dr. Hamilton's ability should be willing to come here and labor as he has for a full month upon faith, and without any guarantee, whatever as to his remuneration, shows the sincerity and earnestness of his purpose. But the laborer is worthy of his hire, and we believe that the people of Bedford and vicinity

sleaves, and grasping a large pole-axe he called upon all Christian men to join with him in seizing the axe of the Christian ballot and therewith striking a death blow to the saloon. Before the audience could realize what was being done, with one tremendous swing of the axe he had smashed the whiskey jug into a thousand pieces, and then grasping the released flag, he waved it in triumph over the freedom of hitherto outraged, but now redeemed womanhood and childhood. Instantly, men all over the vast audience were on their feet in cheers and applause and with faces beaming with mingled tears and laughter. No man who witnessed this scene, so real, so startling, and so effective can ever forget it. So soon as quiet could be restored Dr. Hamilton made a strong and earnest appeal to the unsaved men present to line up for lives of purity and righteousness, and to accept Jesus Christ as the one who alone could liberate them from the guilt and power of their sins. Seventeen men responded to this appeal, while many others went away under a spirit of conviction, which has since led them to a personal surrender to Jesus Christ.

Sunday evening brought out a large audience, and added twenty-five more to the list of converts, nearly all of whom were adult men and women. Other additions have been made to these numbers during the week.

Wednesday night was Odd Fellows' Night, and while the storm hindered several delegations from other lodges being present, the Bedford Lodge was out in full force, and were treated to a strong and appealing sermon.

Last night arrangements for a special return train to Saxton over the Huntingdon and Broad Top Railroad brought large delegations from the towns along the line.

This afternoon at 2:30 o'clock Dr. Hamilton will bring a special message to old soldiers, members of the Grand Army of the Republic, and other kindred army organizations. This message should have a large hearing.

Family Night

This evening will be Family Night. Families are asked to come entire, and to sit together in the Tabernacle. A prize will be given to the largest family present. Dr. Hamilton's subject tonight will be "The Home," and will doubtless be a most strong and helpful message, a message which he says God has laid upon his heart to give wherever he has the opportunity. This ought, therefore, to be one of the most largely attended and one of the most inspiring and helpful services of the entire campaign. Let parents come and bring their children with them.

Saturday night the Booster Chorus will appear for the last time, and Dr. Hamilton will preach a short, illustrated sermon to the Boosters before bringing his regular message for the evening.

Sunday the Closing Day of Campaign

In view of the County Teachers' Institute next week, the meetings will close Sunday, as previously planned. There ought to be at least another hundred converts before Sunday night. If all will recognize that Sunday time is short, and if the Christian people will be instant in prayer and faith and personal effort, and the unsaved will speedily act upon their convictions of right and duty this happy result will be realized. There will be but two services in the Tabernacle upon Sunday. The Sunday School will meet in their respective places at the usual hour, but will adjourn in time for the service at the Tabernacle at 11 o'clock. This being the last morning service by Hamilton and Gould everybody should be present. Mrs. Shumaker will meet the women for the final women's meeting at 2:30 o'clock in the Methodist Church. Let the women make note of this and plan to be present for this closing service in this helpful series of women's meetings. Of course no one will want to miss the great closing service at the Tabernacle upon Sunday evening, nor will any one want to miss having a part in the

Free-Will Offering for Dr. Hamilton Upon Sunday.

Contest Closes With This Issue

The educational missing word contest closes with the issue of December 11th. The slips will not be tabulated until after December 17th, since the contestants have until December 17th at 5 p. m. to return the slips for the last week's ads.

The missing word for Page 1 of last week was incredibly in Fred S. Sammel Company's ad.

The missing word for Page 2 of last week was astounding, omitted from Blymyer's ad.

For Page 3 of last week the word

omitted was sensibilities in W. F. White's ad.

The missing word for Page 1 this week begins with A and ends with E. For Page 2 it begins with E and ends with E. For Page 3 it begins with E and ends with S.

Remember we do not vouch for the English of the advertisement. We strike out a word from the ad which breaks the English. You find that word. Attractive ads do not always follow the rules of English. Ads are written to attract attention.

John Lutz, Esq., Prominent in Politics, Public Affairs and Journalism Dies

College Graduate, Lawyer, Editor and Postmaster. Was a Sportsman and Pioneer Advocate of Scientific Farming and Fruit Growing. A Member of Lutheran Church.

John Lutz, Esq., the senior member of our local Bar, died at his residence in Bedford on Sunday morning, December 6, 1914.

The news of his sudden death was a profound shock to the people of Bedford, for, less than three days had passed since they saw him on our streets, apparently in his usual vigor and full of his accustomed interest in current affairs. From early manhood he had been a familiar figure in this community and identified with its activities and its public life. Like his parents, Michael Lutz and Rosannah (Stuckey) Lutz, whose eldest son he was, he was born and reared in Bedford County. His ancestors on both sides came to this county from Virginia in the closing years of the eighteenth century, following close members of the family had served. As early as 1808 his paternal grandfather erected and operated one of the first woolen factories in this part of the State; and in his youth the grandson was trained in the same occupation. With an ambition for professional life, he entered the Bedford Academy under the instruction of Rev. John Lyon, then a noted educator of this locality, and later became a student of Pennsylvania College at Gettysburg, from which institution he received the degree of M. A., and of which he was later for many years an active trustee.

Returning from college to Bedford, he registered as a law student in the office of the late Judge Alexander King and was admitted to the Bar of this county on May 5, 1864. A year later he and Joseph R. Durbin, Esq., formed a partnership in the practice of the law and ownership and publication of the Bedford Inquirer. During its continuance, for a period of about ten years, the firm enjoyed a lucrative law practice and at the same time conducted a very successful and creditable newspaper. The editorial work devolved largely on Mr. Lutz, and after the firm dissolved and he was the sole owner of the Inquirer, he became still more engrossed in the work of his paper; so that he withdrew almost entirely from the active practice of his profession, devoting himself more assiduously to his editorial work and the supervision of his paper. He was a charter member of the State Editorial Association and an active and interested participant in its affairs. He was also a member of the National Editorial Association.

Editorial work was in fact his favorite field of effort, and the editorial columns of his paper form a splendid monument to his memory. To them he gave the best thought of a laborious life. He trod the higher walks of that profession, and the productions of his pen were always clean, clear-cut, direct, instructive and elevating. Speaking weekly through his paper to a large constituency of readers, he sought by every means to develop the moral, educational and material interests of the county. He was early an ardent advocate of railroad construction within the county and of the development of our mineral resources. In the fruit growing industry of Bedford County, which has become so large and promising a feature, he was in fact a pioneer. For years his paper teemed with articles from his pen, pressing on his readers the advantages, profits and best methods of enlarged and scientific fruit culture. We shall probably never know how many of the progressive men of the county who engaged so successfully in that business in later years, obtained their inspiration from his intelligent treatment of the subject.

In 1903 he was appointed postmaster of Bedford by President Roosevelt and served until 1911. During his administration of the office the rural mail system was established here and a number of routes, radiating from his office were created. In the same period the local free delivery in our town was adopted, all of which greatly multiplied the duties of his position. The efficiency with which he administered the office is greatly to his credit, and he had the pleasure, during his term, of seeing the Bedford postoffice raised to the second class.

By way of diversion and recreation, Mr. Lutz was a devoted disciple of Isaac Walton. He was an adept angler and whipped the streams with market success. He did, however, not only take game fish from the streams, but repeatedly, from year to year, help to stock them with fresh supplies.

Politically he was a staunch Republican until the Progressive Party came into the field, since which he has earnestly supported its principles.

Mr. Lutz was a life-long member of the Lutheran Church and for years an officer of its local organization. He and the members of his family

He was twice married; first to Miss Emily C. Filler, to which marriage there was born a son, Rev. William F. Lutz, now Rector of Christ Church, Eddington. This union lasted but a few years, when Mrs. Lutz died; and since then, in 1883, he married Miss Harriet E. Way of Union Springs, N. Y., who, with the following additional children, survives him: Charles W., a civil engineer with the Pennsylvania Railroad; Rose E., a student at Wilkeson College, Chambersburg; and Dorothy E., at home.

A Friend.

Resolutions

Death has again visited our Bar and gathered for his harvest its oldest member, and while the tears that bedewed the eyes of friendship are wiped away, we pause before the coffin that contains the mortal remains of John Lutz to recall and to speak of him as he will be remembered.

John Lutz was born at Lutzville, this county, January 6th, 1835, came to Bedford in 1862 and lived and labored in this community to the end of his days. He was widely and favorably known throughout Bedford and the surrounding counties. Desiring an advanced education he earned the means by teaching in the public schools in the winter and working in a woolen mill in summer, whereby he attended the Bedford Academy and later took a Classical Course at Pennsylvania College, Gettysburg. He read law with the late Honorable Alexander King, afterwards President Judge of this Judicial District, and was admitted to the Bar in 1864, and at once entered upon the arduous and exacting duties of the practice of law with this firm. His purpose, care and fidelity that characterized his whole life gave promise of a brilliant career in his chosen profession.

But it was not at the Bar that he was to find a field for his genius and attain his greatest usefulness. His scholarly attainments and the forcefulness of his writings early attracted attention, and though he never wholly gave up the practice of law, he became editor of the Bedford Inquirer in 1865 and remained in active journalistic pursuits until he was honored with the appointment of postmaster of Bedford, which office he filled with conspicuous ability for eight years.

As a citizen he was progressive and loyal to his town and county and optimistic of their future; as an editor he wielded a trenchant pen and at all times was an ardent advocate and participant in all public enterprises having for their object the welfare of the community in which he resided.

He was a man strong in his convictions of right and did not countenance compromise with evil. The tone of his editorials ever rang true on the side of virtue and morality.

As a public official he was honest, courageous and zealous for the public good and the establishment under his administration of rural routes and free delivery in Bedford will ever mark his term as postmaster as notable.

He was a lover of nature and a devoted student of her myriad beauties and withal a thorough and accomplished business man.

He was a consistent, honored and useful member of the church of his choice, kind to the poor, firm for the right as God gave him to see the right; true to his friends, exemplary in his habits and useful to society.

He was a devoted husband and a kind father and his memory will be cherished while men admire virtue. His seat at the Bar is vacant. We shall miss him in our daily associations; but his memory will remain a blessing. Peace to his ashes.

In view of his sudden removal we beg to present the following resolutions:

Resolved, That we deeply regret the death of an honorable gentleman, a useful citizen, an earnest Christian, a loving husband and kind father, and be it

Resolved, That this testimonial be presented to the Court and that the Court be requested to order that it be spread on the records thereof and that a copy be presented to his bereaved family.

Respectfully submitted,

The New Top-Coat and The One-Piece Frock

Suggestions for Remodeling An Old Frock in Accord with Fashion's Latest Rulings

HATS, LARGE AND SMALL

New York, December 1, 1914.
The styles of twenty years ago seem to hold a strong place in the minds of the people this year, the one-piece frock and the separate, so-called "top-coat" being particular off-springs of the clothes of that day.
A practical innovation in this mode of dressing, which has taken the place of the suit in many cases. The dress may be dressy enough to wear to many things where a suit would be out of place and the top-coat, if care is taken in its selection, may be worn for evening as well as day-time.

The collar. The collar of this waist is trimmed with an ostrich fringe. There is a Chinese satin which is just coming to the front, which may be washed without spoiling its luster. This fabric is being used for simple shirt waists and one smart young woman, who is noted for the good style of whatever she wears, has ordered a half dozen of this material to be made just like men's negligee shirts.

A Frock of Sand Colored Broadcloth with Simple Trimming of Braid, Binding and Small Buttons.

The middie blouse is having a vogue of its own, since that is really what many of the popular jumpers really are. It is another excellent way of renovating a frock. For instance, a skirt of broadcloth or serge seems very new, indeed, with the addition of a velvet waist, which hangs in a straight line from shoulder to hips.

The hats are made in two extremes, the large and the small—there seems to be no "in between" hat. The high turban and the large sailor vie with each other for popularity and each seems to have variety enough in styles to make itself becoming to a variety of types of beauty.

The smartest thing in veils is one which is cut circular and hangs below the chin. This is worn with a small, close-fitting hat.

Remarkable Results of the New Tissue Builder, Tonoline Tablets, in Many Cases of Run-Down Men and Women.

Prove it Yourself by Buying a Box of Tonoline Tablets NOW.

"By George, I never saw anything like the effects of that new treatment, Tonoline Tablets, for building up of weight and lost nerve force. It acted more like a miracle than a medicine," said a well-known gentleman yesterday in speaking of the revolution that had taken place in his condition. "I began to think that there was nothing on earth that could make me fat. I tried tonics, digestives, heavy eating, diets, milk, beer and almost everything else you could think of, but without result."

Any man or woman who is thin can recover normal weight by the best new treatment, Tonoline Tablets. "I have been thin for years and began to think it was natural for me to be that way. Finally I read about the remarkable processes brought about by use of Tonoline Tabs, so I decided to try them myself. Well, when I look at myself in the mirror now, I think it is somebody else. I have put on just forty pounds during the last forty days, and never felt stronger or more 'nervy' in my life."

Tonoline Tabs are a powerful inducer to nutrition, increases cell-growth, food, increases the number of blood-corpuscles and as a necessary result builds up muscles, and solid, healthy flesh and rounds out the figure.

For women who can never appear stylish in anything they wear because of their thinness this remarkable treatment may prove a revelation. It is a beauty maker as well as a form builder and nerve strengthener. Tonoline Tabs cost \$1 for a 50-days' treatment, at druggists, or mailed by American Proprietary Co., Boston, Mass.—Adv.

FARMERS' INSTITUTES

Successful Meetings Held at Buffalo Mills, Cumberland Valley and Charlesville.

The Bedford County Farmers' Institutes, held under the auspices of the Department of Agriculture of Pennsylvania, were held November 18-21, giving five sessions at each of the following places: Buffalo Mills, Cumberland Valley and Friend's Cove. County Chairman W. F. Bidle put forth every effort to have the institutes advertised and to make them a success. The lecturers were all practical men who farm their own farms and know what they know from actual experience. The speakers were L. W. Lighty of Adams County, Fred W. Ward of Bradford County and E. L. Phillips of Clinton County.

The Friend's Cove institute was attended by C. R. Orton of State College, who spoke on (1) Diseases of Fruits and their Control; (2) Diseases of Potatoes and their Control; also on "What State College is Doing for Pennsylvania Homes."

Maintaining and Improving Soil Fertility was discussed by L. W. Lighty. The first consideration is to take care of what fertility we already have. One way to do this is to keep a growing crop on the land to hold the fertility and to prevent the loss of fertility in our farm stables and farm yards. The liquid is nearly all lost by leaking through board or earth floors. This liquid contains a high per cent. of nitrogen which costs 18 to 20 cents a pound when you buy it in commercial fertilizer. These barn manures are rich also in potash. Nearly all these elements may be saved by using concrete floors in the stables and by using acid phosphate as an absorbent.

We may improve the soil by putting it in the right mechanical condition. Another consideration is to get organic matter in the soil. Get it there by growing a crop and plowing it down or by growing catch crops (any crop you can grow between money crops), and by plowing down good heavy sods as frequently as possible.

The Need of Lime in the Soil was discussed by E. L. Phillips. Lime is an essential element in all soils. Real purpose of lime is to sweeten the soil. Enough to neutralize the acid is all. Lime acts mechanically as well as chemically. Test the soil by the use of blue litmus paper. Another way to test the acidity of the soil is to notice the growth of clover; clover leaves a sweet soil. By actual tests 35 bushels of lime give as good results as 70, 140 or 200.

Caustic lime should be used judiciously because it destroys vegetable matter in the soil, and because it is hard to handle and hard on the pocket book.

Some Lessons at School was discussed by Fred W. Card. Two aims in sending children to school, one is to learn facts, the other is to give the mind power to solve problems of life. These lessons at school should teach every day facts (bread and butter facts) that will come into the everyday life. Train along practical lines which will help the boy and girl to be a better man and woman. These lessons at school ought to develop character. Better lose all else than character. All great success is the outgrowth of character. Emphasize fundamentals instead of fads.

Lessons should recognize the individuality of the child. Lessons should begin with the things that center around the child. The child should become acquainted with its surroundings first. Reason from the known to the related unknown.

The Rural School. Lighty sees little change in the rural school in the last forty years—same surroundings, same architecture, same heating arrangements, same method of ventilation, little change in method of equipment, not much incentive for Johnny who constitutes the spelling class, the reading class, etc., to study because in so many schools he has no competitors.

Farm conditions in the last forty years have brought great changes on the farm in the way of improved machinery and equipment. Have our rural schools been adjusted to present day conditions? The centralized school is proving to be a success and in many cases cheaper than the present system and it is better without a shadow of a doubt. He would have manual training to some extent.

Poultry Farming by E. T. Phillips was given. Mr. Phillips keeps from 5,000 to 6,000 fowls on his farms during each year. One needs much preparation before going into the poultry business. Extensively if you wish to be successful. One of the requirements is knowledge, another is observation and strict attention to details. Mr. Phillips keeps all E. C. White Leghorns, but says select the kind of fowls you like best and keep them well bred and well filled with constitutional vigor. Get the best incubator regardless of price. One of the first feeds is good pure water. Always feed sweet grain, musty feeds mean sickness and death.

Pratt Growing by Mr. Card. In this talk Mr. Card exhibited the different methods of raising and budding.

fore planting the tree. He cuts out all bruised and decayed portions of the roots. He cuts the top back to make as well balanced tree as possible. Would choose varieties adapted to your needs and your locality. If planting a commercial orchard would plant as few varieties as possible.

Corn Growing by Mr. Lighty. Corn is one of the most digestible and palatable feeds we raise. It is good for all the animals and for us.

Must prepare the soil by filling it with humus and making it retentive of moisture.

Cereal crops require from 300 to 600 tons of water to make one ton of dry matter. Plow so as not to interfere with the movement of the water from the subsoil.

One furrow against the other. Don't throw the mature and sod flat in the bottom of the furrow. This interferes with the upward movement of water in the subsoil. Harrow thoroughly to make an ideal seed bed. Plants feed on minute particles of soil not clods. Test seed corn for vitality. Cultivate as often as possible.

Commercial Fertilizer by Mr. Phillips. This was a most valuable talk, one that will save farmers who use commercial fertilizers many dollars each year. He advocated home mixtures of fertilizers and believes also that farmers should make it their business to know what they should pay for the different brands of fertilizers. Too many men buy without regard to analysis. They go more on high sounding names big crop, grain and grass special, etc., than on the analysis.

Some Farm Mistakes I Have Made by Mr. Card. Mistake to try to do too much or to have too many lines, trying to do more than we can with the equipment and help available. Mistake in not doing things at the right time. To work so hard that you are too tired or have no time to think. Rushing and planning pays better than digging and delving. It is a mistake to be changing from one line to another.

E. T. Phillips spoke on Poultry Houses. This talk was illustrated by lantern slides showing construction of poultry buildings.

The Pig in Poke, Pasture, Pen and Parlor by Mr. Card. Don't buy a pig in a poke. Choose the kind of pig best adapted to your needs and market. Choose a fairly prolific breed; keep them well bred. To get constitutional vigor in herd they should be kept on range in pasture. Rape, cow peas, soy beans, sweet corn, clover or alfalfa make excellent pasture. Pen and parlor should be warm and dry.

They should have energy making food, such as corn, etc., and plenty of skim milk. Pigs are more pliable to get rheumatism and thumps in pen than on pasture. The pig is very tidy about his bedroom if given a chance to be.

Not being able to attend all the sessions this is only a partial report of the institutes.

Children Cry FOR FLETCHER'S CASTORIA

Clearville

December 1.—Prof. and Mrs. C. W. Hockenberry attended the funeral service of the former's uncle, John Stayer, on Thursday, hence there was no school in the advanced room.

Silas Fletcher of Everett, Rt. 3, Herman Barkman of Chapman's Run and D. C. Blankley of Steckman were in our village on Friday.

The following persons went to Bedford to hear Evangelist Hamilton: William M. Diehl of Rt. 1, Mrs. Browning and Mrs. Ira Karns of this place.

H. Wilson of Everett, Rt. 3, made a business trip to this place on Monday.

Benjamin Koonz of Steckman was noticed in our village on Tuesday.

Harry Miller and wife of Lewis, Ia., Rt. 2, but formerly of this place, have been visiting their parents in Clearville and Chapman's Run since Saturday. Gideon's children awaited their coming Saturday evening with tip-toe expectation.

Do not forget the District Sunday School Convention at Chapman's Run on Saturday the 5th inst. James B. Price after being housed up with a sprained ankle for several weeks, is able to go about his work again.

A WARNING TO MANY

Some Interesting Facts About Kidney Troubles

Few people realize to what extent their health depends upon the condition of the kidneys.

The physician in nearly all cases of serious illness, makes a chemical analysis of the patient's urine. He knows that unless the kidneys are doing their work properly, the other organs cannot readily be brought back to health and strength.

When the kidneys are neglected or abused in any way, serious results are sure to follow. According to health statistics, Bright's disease which is really an advanced form of kidney trouble, caused nearly ten thousand deaths in 1913, in the State of New York alone. Therefore, it behooves us to pay more attention to the health of these most important organs.

An ideal herbal compound that has had remarkable success as a kidney remedy is Dr. Kilmer's Swamp-Root, the great Kidney, Liver and Bladder Remedy.

The mild and healing influence of this preparation, in most cases, is soon realized, according to sworn statements and verified testimony of those who have used the remedy.

If you feel that your kidneys require attention, and wish a sample bottle, write to Dr. Kilmer & Co., Binghamton, N. Y. Mention this paper, enclose ten cents and they will gladly forward it to you by Parcel Post.

Swamp-Root is sold by every druggist, in bottles of two, five and ten dollars.

Lock Speed

Lock speed is a big element of success in making high scores at the trap or in the field.

When you pull the trigger you want it to go with lightning speed. Flying birds and targets will not wait for a hang fire load or a slow lock.

Our lock was carefully and scientifically timed at the University of Cornell.

Test was made by means of a fly wheel traveling 577,171.5 inches per second. By means of a special device it was found that the fly wheel traveled 335 in while hammer was falling. Dividing 335 by 577,171.5 gives the time it took the hammer to fall, .00058— or expressed in fractional form, 1-625 of a second.

When the hammer struck it was traveling 233 inches per second.

We figure that this greased lightning speed will increase your score at least 5 per cent.

The slower the lock and the slower the load the further you have to lead your birds.

Solving the Low Cost of BUYING

Everybody is talking about the high cost of living, and racking their brains for a solution. That's easy. All you have to do is to solve the "Low Cost of Buying." Study carefully the QUALITY and the PRICE before you part with your money, for the one is as essential as the other. A few pennies saved on each article used by the average family would amount to a considerable sum in the run of a year. It reduces the cost of living.

WE have solved the "low cost of buying" with incredibility, and YOU will solve it when you come to us, for we are slicing off the pennies for you which the manufacturer HAD to slice off for us.

Meet us face to face, and you will go home with a smile.

All First-Hand

One frequently hears the query. "Why is it so hard to buy a second-hand Ford?"

There are at least three answers. There are no second-hand Fords. They're all first-hand Fords. And they're all in use. The average Ford-purchaser has bought his Ford because he needs a Ford—not just an automobile—but a Ford. And he doesn't have to consider another car because his Ford never stops running. It is literally true that there are no second-hand Fords to be bought.

WEEKS TO CHRISTMAS

Not Much Time Left For Christmas Buying

Champ Clark had better lean a little on Bryan's water wagon. Possibly some of Bryan's grape juice, at which the liquor contingent like to sneer, would have kept his limbs steady, head clear and tongue responsive.

President Wilson's message to Congress is noted for its brevity and took only 40 minutes to deliver it. He asks that the people maintain a strict spirit of neutrality. He does not believe in "turning our country into a military shop," in maintaining a large standing army. He believes in an intelligent "citizenry trained and accustomed to arms," "a well established navy," being "champions of peace and accord." "Dread of the power of any other nation we are incapable of." Full message will appear next week.

Another way of making up for shortening of time before election and of repenting is shown by R. T. Crane Company of Chicago who announces that it will give \$650,000 back to its employees for loss of wages due to shortening of time before election. Why couldn't this concern have gone on and have given this wage day by day instead of in a bulk weeks after? Didn't they have the money then as well as now? Has their business increased so wonderfully after election that they cleared so much as \$650,000 to give back as well as a clear profit for themselves?

Up in New York a manufacturer died with \$77,000,000 to the good and was 75 years old. No one of his employees was worth more than \$5,000 and the greater majority lived from hand to mouth, wages not sufficient to provide for the future. That is protective tariff for you. It protects the rich. The poor can do the best they can. In fact a protectionist does them all he can. When he finds his laborers are happy he inaugurates a strike and closes down, not to save money, but to force obedience. Strikes are not always the will of the strikers but mostly the will of the manufacturer, the tariff-made millionaire.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Catarrh Trouble
Ended by Hyomei

An Inexpensive Easily Used and Most Effective Remedy.

Surely try Hyomei, nature's harmless remedy for catarrh, colds, asthma, bronchitis, or croup of children—a treatment that is pleasant to use, and so certain of results that F. W. Jordan, Jr., sells it on the "No-cure-no-pay" plan.

Hyomei is not a cure-all but a specific for distressing catarrh and similar ailments. You breathe Hyomei so that its antiseptic medication at once reaches the irritated and diseased tissues, healing and soothing the sore spots.

Get a Hyomei outfit, which contains inhaler and bottle of liquid, at once. Put twenty drops of Hyomei into the inhaler and breathe it a few times during the day. There is no treatment so satisfying for it instantly opens the stopped-up air passages—you breathe freely, the unclear discharges from the nose stop, and dull headaches vanish—even the worst cases respond quickly.—Ad. 11Dec2t

DR. S. D. FESS

An Estimate of the Man as a Lecturer.

Dr. Fess is in constant demand in the lecture field. It is a remarkable and interesting fact that though he is going in every direction to lecture, he has never yet filled an engagement through the arrangement of a bureau, and that he has given a course of lectures in almost every county seat in Ohio and Pennsylvania. It is doubtful whether a statement like this can be made of any man in the lecture field. An idea of his popularity in this line of work may be had from the fact that in some cities in Pennsylvania, in Pittsburgh, Lancaster and York, he has delivered over forty lectures in each city; and that his lecture on Lincoln has been given hundreds of times in various States, and that in 1909, the year of the Lincoln Anniversary Meetings, he declined 143 invitations to make this address. It is apparent to any one that a man to keep himself thus constantly before the public as a speaker must be a man of real substance of thought, a man with messages that are worth while.

He is a speaker of commanding influence, and at Washington is the peer of the ablest and best men that measure wit and knowledge and persuasion against one another in the arena of intellectual and linguistic conflict. He was selected to make the Lincoln anniversary address. He was also selected to represent Congress in the Independence Day Celebration at Philadelphia, July 4th, where the President spoke for the nation immediately afterwards.

The above is taken from a short sketch of the life of Dr. Fess, who will deliver his famous Lincoln oration before the Bedford County Teachers' Institute Monday evening, December 14, 1914. Come to hear him.

—Lloyd H. Hinkle,
County Superintendent.

John M. Blackburn

Relatives in this county have been notified of the death of John M. Blackburn, who passed away November 12 in Albuquerque, N. M., aged 81 years. He was born in Bedford County May 27, 1833, and was a son of John G. and Rebecca R. Blackburn. His wife, who was Malinda Rehinger, and six children preceded him to the grave. One son, Ezra L., of Avery, Okla., and one daughter, Mrs. Ora Hayes, of Albuquerque, N. M., survive; also one sister, Mrs. Sarah A. Davis, of Altoona and two brothers, Harrison R. and Dr. E. A. C. Blackburn of Ryot.

In the Civil War Mr. Blackburn was quartermaster sergeant in Company E, Twenty-first Regiment, Pennsylvania Volunteer Cavalry. After leaving Bedford County, he resided in Iowa, Kansas and Missouri. The funeral took place at Union Star, Mo.

Fruit Growers' Meeting

The Bedford County Fruit Growers Association held their annual convention in the Court House on Wednesday and Thursday. Prominent speakers were present and made excellent addresses. The exhibit of fruit was exceptionally fine and the attendance was good. A full account of the meeting will be given next week.

Falling Hair or
Itching Scalp

Surely Cease When You Use Parisian Sage—Makes Your Hair Soft and Fluffy.

Now that Parisian Sage—a scientific preparation that supplies every hair and scalp need—can be had at any drug counter, or from F. W. Jordan, Jr., it is certainly needless to have thin, brittle, matted, stringy or faded hair. No matter how unsightly your hair, how badly it is falling, or how much dandruff, Parisian Sage is all that is needed. Every trace of dandruff is removed with one application; the hair roots are nourished and stimulated to grow new hair, itching scalp and falling hair cease—your hair becomes soft, fluffy, abundant and radiant with life and beauty.

Parisian Sage is surely one of the most invigorating and refreshing hair tonics known. It is easily used at home—not expensive, and even one application proves its goodness.—Ad. 11 Dec. 2t.

Edison, Electrician Burned Out

The Thomas A. Edison Electrical plants were destroyed by fire on Wednesday night with a loss of \$7,000,000, and with an insurance of but \$2,000,000. These plants made phonographs, moving picture films and other of his inventions. Explosions caused the initial fire which spread from building to building causing explosion after explosion until the whole plant was consumed.

ity fully recognize this, and in view of the splendid results of these meetings both directly and indirectly, we doubt not but that the free-will offerings upon Sunday will be a worthy expression of appreciation and gratitude to Dr. Hamilton for his most efficient and most arduous labors among us.

Extract From Dr. Hamilton's Sermon Upon "Shams"

"So many of the real things of life are covered with a mask, before we can see the real the mask must be removed."

"You are not a man just because you have a large and well developed body. Avoiding is not essentially manhood. A man may be as big as the side of a barn, and be very little more of a man than the other creatures in the barn."

"Just because you are a man is no reason why you should be given a permit to indulgences that are denied to your mother, your sweetheart, your wife or daughter or sister just because they are women."

"A young man who steps up to a pure young woman and asks her to be his wife owes that young woman the same pure life that he demands of her. She has a character that is without a tinge of suspicion, she is entitled to the same from the young man who sues for her hand."

useless practices that men follow profanity is the most unprofitable of them all. Mr. Bryan says 'profanity is the sign that men lack ideas, or else words to express their ideas.'

"The card game in the home is the kindergarten for the public gambling hall. Not one in a thousand learn to play in the gambling hall. * * * if you would stop the gambling business that is a stench in the nostrils of the country, you must stop making gamblers in the home, you must quit your parlor card games."

"A German chemist has proved by a mathematical accuracy that there is more food in a half-sized loaf of bread than can be obtained from twelve months drinking of beer at the rate of two gallons a day. Think of the slop a man has to pour down his gullet, 730 gallons of swill in order to get two and one-half cents worth of food, and the doubt is whether he gets it then."

"The saloon," as one has said, "is the stem around which cling all the fostering vices of the nation."

"The saloon respects the thief. * * * esteems the blasphemer; it fills prisons and penitentiaries; it despises virtue, scorns love and mocks heaven; it tempts the passions and lies in wait for the unborn * * * it is the moral clearing house for damnation and rot and poverty and insanity * * * every plot that was ever hatched in the nation to insult the flag and damn the government of the best people the world knows, was born in and crawled dripping with infamy from

the saloon or grog shop."

"Oh men, let us summon our manhood, our courage and our love, let us throw off our coats, pull up our sleeves, grasp the axe of the ballot, and with a mighty uprising such as was never equaled on battle field in the Revolutionary War, or marshaled in the Civil War, or buried against foreign foe, let us come from the East and the West, from the North and the South, and with one mighty swing of our force with the ballot let us knock the saloon power into hell, that once again the flag may be free, and under its folds home and mother and children and virtue have protection."

Jacob Lowery

Jacob Lowery died at the home of his son at Keystone Mines, Somerset County, on November 21 and was buried at that place the following Monday. He was married to Catherine Deneen and resided at Tatesville for a number of years. One brother survives and lives in Everett and one sister, Mrs. Rebecca Steckman, at Hyndman.

New Enterprise

December 8.—There was quite an excitement in town Saturday evening for a few minutes. Mrs. Oscar Beach went to the home of her parents, Rev. and Mrs. Levi Holsinger, to do some chores while they were spending some time visiting in Washington, D. C. Saturday evening her brother Orville hitched up to take Mrs. Beach to Waterside to church where she was to meet her husband and accompany him home. As they were going down the hill by the alley at John Wyles, the horse began to kick and continued to kick and run until they got down to the post-office where they got him stopped. The shafts were broken to pieces and the front part of the buggy was kicked off Orville and his sister were still in the buggy but they were considerably out and bruised but no bones were broken. Mrs. Beach was carried to the home of her father-in-law, Adam Beach, and Orville was taken to Dr. Dymond's where his wounds were temporarily dressed until after the doctor dressed Mrs. Beach's wounds. They are both getting along very nicely.

Mrs. Lee Furry is spending a week or two in Johnstown visiting her children and friends.

Why worry about Xmas presents? Nothing is more appreciated than a good photo made by the McCreary Studio.—Adv.

Waterside

Springhope

December 9.—D. R. Callahan and wife of Pine Grove spent Monday with the former's brother, Elwood Callahan.

William Zeigler moved on Tuesday into the new house a short distance south of Springhope which he built this fall. While Mr. Zeigler only moved about one-fourth mile, East St. Clair Township loses a citizen and Napier Township gains one. The property vacated by Mr. Zeigler will be occupied by D. F. Deaner, who will begin operations for the building of a new house in the near future.

Charles Wolfe was here attending to his duties as assessor a few days ago.

Herbert Suters, wife and two children of Johnstown are spending some time visiting Mrs. Suter's parents, Mr. and Mrs. John Blattenberger, prior to their moving to New Paris.

This Is Economy

If everybody had a correct understanding of the word "Economy" there would be less money wasted in this world—saving would be made easier—riches would come sooner.

The foundation of Economy is in the saving of the pennies. It is the road to comfort, affluence, wealth.

Practice Economy in every article you buy. No matter what it may be it can nearly always be found just a little cheaper one place than another, without sacrificing the quality.

That is where we excel—in selling you goods a little below what you pay elsewhere.

We save the pennies in buying from the manufacturer—you save them in buying from us.

THAT IS ECONOMY

HERE IS YOUR CHANCE TO SAVE MONEY

We are starting for the first time in Bedford the wonderful

Christmas Savings Club

The club opens December 28th but you can open your account today. We have five different classes so that every person, old or young, may be suited—father, mother, boys and girls; teachers, clerks, laborers, farmers, and everyone.

The Seed Is Pennies—The Harvest Is Dollars

For instance, in the 5c Progressive Class you pay 5c the first week, 10c the second week, 15c the third week and so on for 50 weeks and just before Christmas we will issue you a check for \$63.75 plus interest.

Then we have a 1c Progressive Class yielding \$12.75 plus interest; and a 2c Progressive Class yielding \$25.50 plus interest; and a 50c flat class yielding \$25.00 plus interest.

Or you may reverse the order making the highest deposit the first week and reducing it 1c, or 2c, each week.

Everybody welcome. No charge to join. Each depositor is given a card of his own.
